

Measuring Mobile Broadband America

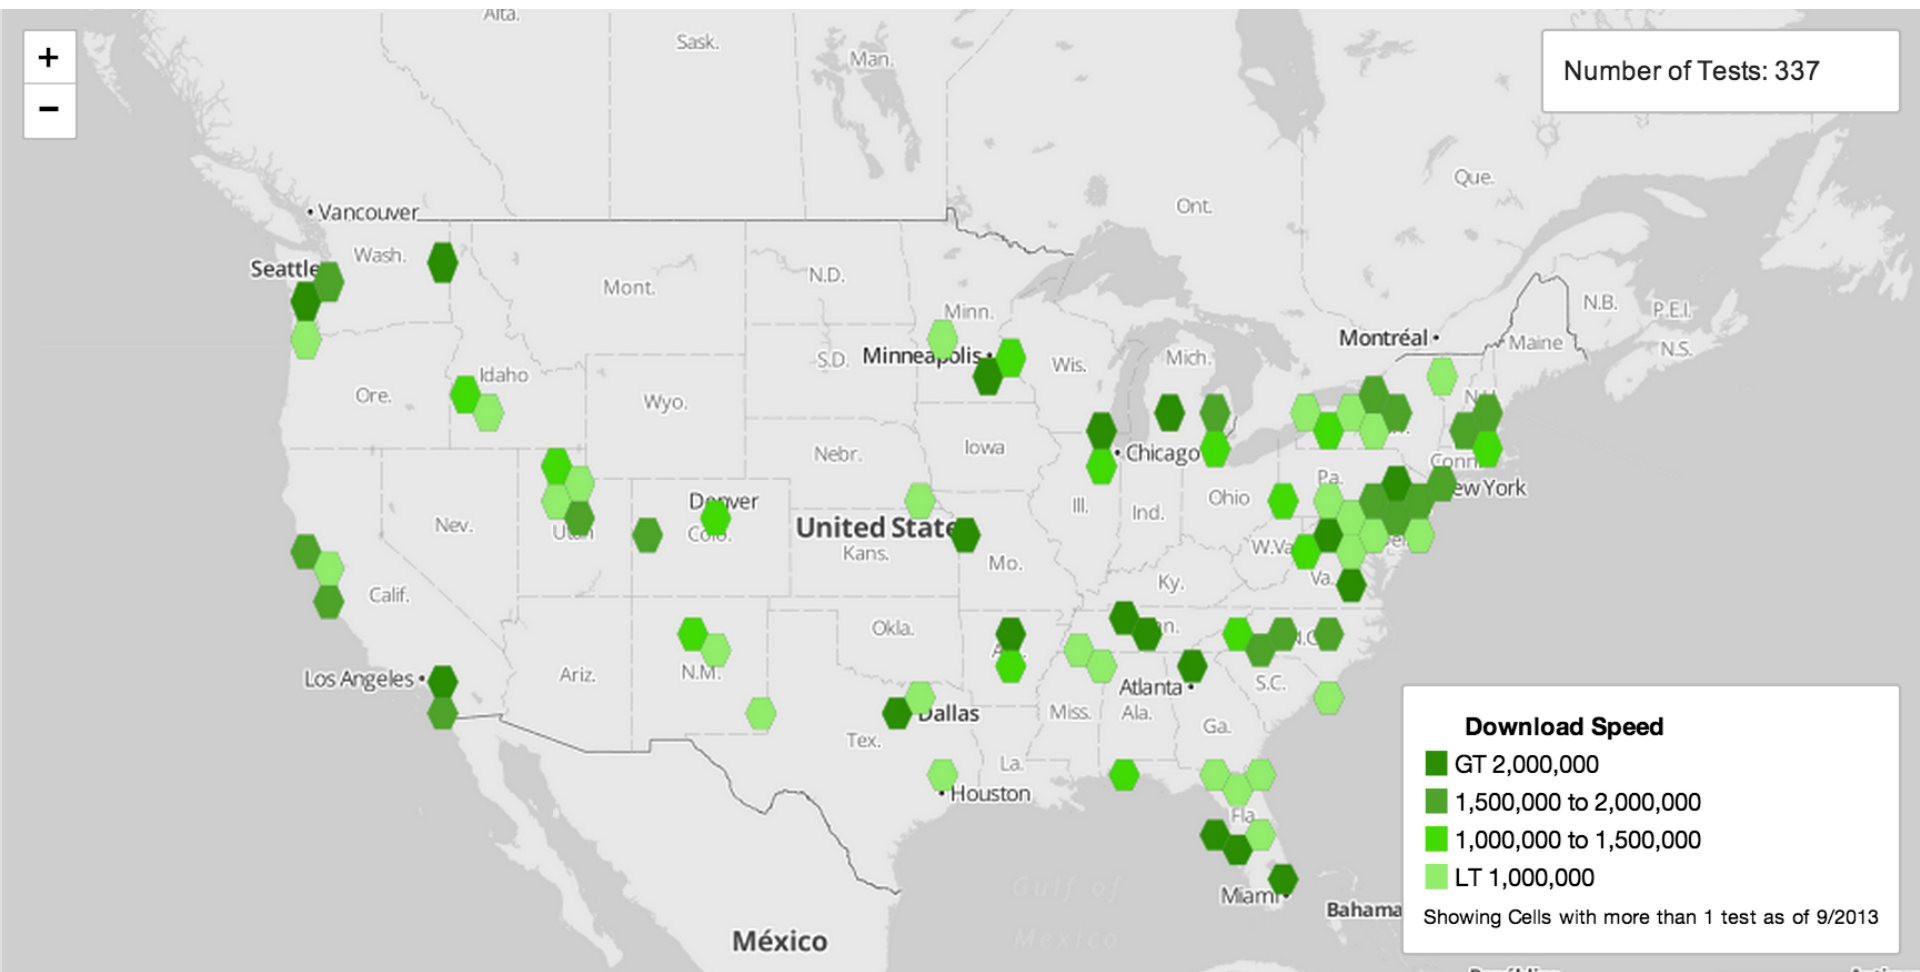

Potential Map/Visualization Examples

Process

- Treat data as points, in time, with a measure (s)
- Aggregate points / time / measure
- Allow investigation of the data along 3 axis;
aggregate points - Hexagons and/or
'surface'
by time (this is harder)
by any attribute (e.g. provider, network type)

Number of Tests: 337

Download Speed

- GT 2,000,000
- 1,500,000 to 2,000,000
- 1,000,000 to 1,500,000
- LT 1,000,000
